

News Release: 1st February 2005

Connecting DMX and DALI

Artistic Licence is pleased to announce the latest addition to the range of DIN rail mounting installation products.

Rail-DALI provides a three way interface for DMX512, RDM (Remote Device Management) and DALI (Digital Addressable Lighting Interface).

Many architectural projects face a technological barrier to the integration of functional and effects lighting. Functional lighting is increasingly available with a DALI interface. Most effects lighting and control systems use DMX512. Rail-DALI solves this problem by allowing a DMX512 source to control DALI lights.

Rail-DALI provides four optically isolated DALI outputs. This allows a total of 256 DALI lights to be controlled by DMX512. Multiple products can be linked together to provide a greater channel count when required.

The product supports the very latest version of DALI by offering bidirectional data flow. Back channel DALI information on light level and fault status is converted to RDM status information. This allows the lighting control system to monitor light status as well as control intensity.

Rail-DALI will preview at the SIEL 2005 and Arc05 tradeshow.

About Artistic Licence:

Since 1988, Artistic Licence has specialised in the design, development and manufacture of products for the entertainment technology industry. The product range encompasses DMX512-A, RDM, Ethernet, Art-Net and MIDI. The range extends from test equipment to data distribution and motion control to LED lighting.

This vast range of products has evolved from years of experience in solving technical problems. At Artistic Licence, no job is too large or too small and no technology is too old, new or complex.

The Artistic Licence Special Projects department provides a unique service by offering the entire product range as building blocks for custom development. Why reinvent the wheel when you can turn to Artistic Licence!

The product line is available throughout the world via a growing number of progressive dealers, a list of which is available from our web site:
www.ArtisticLicence.com

Visitors to our website can also order on-line and download technical data and user guides.

Ends.
