A Galaxy of Colour

Colour-Tramp, the sophisticated 2D lighting controller designed by Artistic Licence, provides the control system at the new Galaxy Park project in Tianjin, China.

The City of Tianjin commissioned Beijing based Teon Scenik to produce a light and laser display in Galaxy Park as a permanent tourist attraction. LED was chosen as the lighting technology and TIR systems was commissioned as the provider, while Hong Kong based Ptarmigan Consulting was appointed to design, install and commission the control system.

Ptarmigan turned to Artistic Licence to provide the Colour-Tramp control system along with a range of DMX512 and Art-Net distribution products. Simon Fraser of Ptarmigan comments on his choice: "I selected Colour-Tramp on its graphics based LED control interface and its ease of programming and automated operation. The main control room is remote from the tower, so the use of Art-Net ethernet significantly reduced the length of expensive DMX512 cabling. The Art-Net ethernet was converted back to DMX512 locally at the fixtures using the Artistic Licence Ether-Lynx".

Ptarmigan Consulting used the Off-line version of Colour-Tramp at their dedicated facility in Hong Kong to pre-programme the show. Final amendments were then made as part of the final commissioning procedure.

About Artistic Licence:

Since 1988, Artistic Licence has specialised in the design, development and manufacture of products for the entertainment technology industry. The product range encompasses DMX512-A, RDM, Ethernet, Art-Net and MIDI. The range extends from test equipment to data distribution and motion control to LED lighting. This vast range of products has evolved from years of experience in solving technical problems. At Artistic Licence, no job is too large or too small and no technology is too old, new or complex.

The Artistic Licence Special Projects department provides a unique service by offering the entire product range as building blocks for custom development. Why reinvent the wheel when you can turn to Artistic Licence! The product line is available throughout the world via a growing number of progressive dealers, a list of which is available from our web site: www.ArtisticLicence.com Visitors to our website can also order on-line and download technical data and user guides.

Ends.
